

FOR IMMEDIATE RELEASE

Canadian Digital Cinema Partnership Announces Completion of \$115 Million Financing for Digital Cinema Conversion

Cineplex Entertainment and Empires Theatres Limited will convert 1600 screens to Digital

TORONTO, ON, (TSX: CGX), June 21, 2011 –Canadian Digital Cinema Partnership (“CDCP”), a joint venture between Cineplex Entertainment Limited Partnership and Empire Theatres Limited, announced today that it has completed its financing transactions for the deployment of digital projection systems to approximately 1600 of the partners’ movie theatre screens across Canada. This financial support will enable Canada’s two largest motion picture theatre exhibitors to complete the roll out of digital projectors into their circuits over the next 18 months.

Digital projection provides consumers with an enhanced movie-going experience far superior to 35mm film projection. In addition to brighter and sharper images on screen, digital projection provides increased programming flexibility, high quality and consistent imagery on screen and the ability to add 3D technology.

Cineplex Entertainment and Empire Theatres Limited appointed Blackstone Advisory Partners L.P. (“Blackstone”) as their financial and structuring advisor for CDCP. Blackstone assisted CDCP with the evaluation and development of their financing plan and The Bank of Nova Scotia acted as Lead Arranger for CDCP’s financing. These financing transactions included commitments of \$80 million in committed bank financing and \$35 million in equity contributions from the member circuits.

Digital Cinema Implementation Partners, LLC (“DCIP”) will provide administrative services and system support to CDCP in connection with its digital deployment in Canada. DCIP is a joint venture owned equally by three of the top US exhibition industry exhibitors and was formed to facilitate the roll-out of a digital cinema infrastructure in the United States. DCIP has itself deployed more than 8,000 digital projection systems to theatres in the United States and Canada during the past year.

CDCP was formed earlier this year to plan and implement the deployment of digital projection equipment in the two partners’ theatres including the procurement of equipment, arranging financing and securing digital deployment agreements with studios and other content providers.

The digital projection systems deployed by CDCP will comply with the technical and security specifications developed by Digital Cinema Initiatives, LLC. CDCP has also executed long-term deployment agreements with Twentieth Century Fox, Sony Pictures Entertainment, Warner Brothers Entertainment, Walt Disney Studios Motion Pictures Canada, Paramount Pictures and Entertainment One.

About Cineplex:

Cineplex Inc. ("Cineplex") is the largest motion picture exhibitor in Canada and owns leases or has a joint-venture interest in 129 theatres with 1,344 screens serving approximately 70 million guests annually.
